

Chemistry Solutions For Your Engineering Challenges

News Release

November 13, 2017

Triboscience & Engineering, Inc. (TSE) announces the acquisition of Opus Tertium, LLC., owner of G-Lube branded lubricants effective November 1, 2017.

Fall River, MA – Triboscience & Engineering, Inc. (www.tselubes.com) announced today that it has acquired the G-Lube specialty lubricants business from Opus Tertium (Dallas, TX - <http://www.g-luberail.com/>). G-Lube's primary markets are transportation and general industry. G-Lube has been very successful by focusing on advanced synthetic technology to eliminate technical engineering challenges for their customers.

The acquisition is a great fit as both companies are technology-driven and solution-oriented in that they provide customers with chemistry solutions based on the engineering challenges. Furthermore, this acquisition is completely aligned with TSE's strategic goals and it further enhances its 2017 double-digit organic growth.

This was a private sale. Financial details are not disclosed.
